REI RADIO PRODUCTS

Because Quality Is Always Your Best Investment.

The ultimate measurement of quality is customer satisfaction. REI has been supplying radios, passenger address and camera systems to the School Bus Industry for more than twenty-five years. Along that route, we've forged lasting partnerships with our customers. Thousands of school districts across North America have come to depend on REI for quality products, competitive pricing, advanced engineering capabilities and knowledgeable, responsive customer support.

Every REI School Bus radio, PA system and accessory boasts the quality and reliability that has become synonymous with REI, and our service department is there to solve any problems you may have years down the road. If you're looking for quality Radios that will work for you, look to REI. Light years ahead of our competition, our reliable, quality radios are the wave of the future. Contact your REI sales representative for all your school bus electronic and camera surveillance needs. Radio Engineering Industries, Inc. is an ISO 9001:2000 certified company.
